

Supporting Implementation of DEC Recommended Practices (RPs) Using ECTA Center Products and Tools

Draft an action plan for using RPs to improve YOUR practices:

1. Context: What are you trying to improve or what problem are you trying to solve? Is it practitioner, child, or family skills or behaviors that you want to change?

2. Selecting Practices: What is the main content or topic? Circle the related RP(s):

Assessment	Environment	Family	Instruction
Interaction	Leadership	Teaming & Collaboration	Transition

3. Identifying Products: What products might help you address your primary need? Refer to list of checklists and practice guides. Identify the relevant performance checklist(s) and practitioner or family practice guide(s).

4. Use of products: How might you use the products? Who else needs to know about the products in order to support your plan?

5. Measuring Change: How will you know if you have been successful in improving practice?
