

## Supporting Implementation of DEC Recommended Practices (RPs) Using ECTA Center Products and Tools

**Draft an action plan for using RPs to improve YOUR practices:**

**1. Context:** What are you trying to improve or what problem are you trying to solve? Is it practitioner, child, or family skills or behaviors that you want to change?

---

---

**2. Selecting Practices:** What is the main content or topic? Circle the related RP(s):

Assessment	Environment	Family	Instruction
Interaction	Leadership	Teaming & Collaboration	Transition

**3. Identifying Products:** What products might help you address your primary need? Refer to list of checklists and practice guides. Identify the relevant performance checklist(s) and practitioner or family practice guide(s).

---

---

**4. Use of products:** How might you use the products? Who else needs to know about the products in order to support your plan?

---

**5. Measuring Change:** How will you know if you have been successful in improving practice?

---

---

To keep up with new products and tools as they are available, subscribe to PR4RP News! Go to <http://www.kdec.org/aRPyAmbassador.html> and in navigation pane on the right, click under PR4RP News! Or, email me at [prinkel@ku.edu](mailto:prinkel@ku.edu) and ask to be added to the mailing list!
